

# Small World, Small Works Exhibition

The Small World, Small Works Exhibition was designed as an opportunity for local artists to show their work with other artists from around the nation and the world. Specifically, we hope to bring artists from all parts of the world together under one roof for our visitors to enjoy. We hope to enlighten our visitors about art made by people from regions of the world that they would not normally have an opportunity to see. We value the diversity found in all cultures today and believe that this event will bring people closer to one another through art.
